School of Environmental Studies
Restoration of Natural Systems Program

September 8, 2008.

Re: Reference for Emma Walden

Emma Walden was a student of mine in ES 341 Principles and Concepts in Ecological Restoration. Emma was an excellent student and consistently performed very well, receiving an A+ for the course. She has worked hard in her studies and has applied herself fully to course assignments and projects. She is self-motivated and has high personal and professional standards.

Emma is keen and enthusiastic about conservation, ecology and the environment. She has a genuine interest in and concern for the natural.

Emma Walden is intelligent, reliable, energetic and competent. She is self-directed and disciplined. She is equally comfortable working on her own or in group situations. Colleagues value her maturity, positive outlook and thoughtful insight.

I can highly recommend Emma Walden as a motivated, capable, competent and responsible individual who will excel in her future endeavours.

Sincerely,

A handwritten signature in cursive script that reads "Valentin Schaefer".
